SUMMARY

Full-stack developer with hands-on experience building production-ready web applications using React, TypeScript, Spring Boot, and PostgreSQL. Passionate about clean architecture and fluid user experiences. Currently in 6th-semester Software Engineering at the University of Cartagena. Seeking a remote junior or internship role to contribute to real products and grow fast.

EXPERIENCE

Freelance Web Developer & Software Engineer

Self-Employed · Remote · 2024 – Present

- Designed and shipped 5+ full-stack web applications for clients using React, Next.js, TypeScript, and Spring Boot, from initial wireframes to deployment on Vercel and Render.
- Build custom landing pages, dashboards, and e-commerce solutions with responsive layouts and GSAP animations, improving time-on-page and engagement for clients.
- Managed end-to-end delivery: gathered requirements, defined architecture, modeled PostgreSQL/Supabase schemas, implemented REST APIs, and handled production handoff with documentation.
- Integrated third-party services such as JWT/Auth.js authentication, payments, and external REST APIs to automate manual client processes and reduce operational effort.

FullStack Programming Instructor

Self-Employed · Remote · 2026

- Designed and delivered a structured 4-week online bootcamp on Java and Spring Boot for beginner and intermediate students, combining theory with live coding.
- Created hands-on labs for REST APIs, Spring Security, JWT, and CORS, enabling students to deploy their first secured backend services.
- Led live sessions with real-time code reviews and curated resources, helping students move from zero to building basic CRUD applications.

Electoral Technology Technician

Registraduría Nacional - Colombia · On Site · 2024

- Operated biometric authentication devices to verify voter identities during the 2024 Colombian territorial elections, ensuring accurate and secure registration.
- Handled sensitive personal data under strict security and confidentiality protocols, reducing identity-verification errors across assigned stations.
- Coordinated with electoral staff to resolve incidents quickly and maintain continuous operation of the voting process.

Sales Associate & Customer Support

Retal / E-Commerce Nacional · 2023-2024

- Managed product catalog, inventory records, and pricing data across in-store and online channels, keeping product data accurate and up-to-date for customers.
- Supported promotional campaigns and tracked basic performance metrics to identify best-selling products and adjust stock levels.
- Provided customer service in Spanish and basic English through multiple channels, improving customer satisfaction and repeat purchases.

SKILLS

Design

Figma
UI/UX Design
Design Systems
GSAP Animations
Wireframing
Responsive Design
Prototyping
Flowcharts

Tools

GitHub
Vercel
Render
Supabase
Notion
Linear
Cursor
VS Code
Maven

Languages

Java
TypeScript
JavaScript (ES6+)
SQL
HTML5
CSS3
Swift (basic)
Kotlin (basic)
Dart (basic)

Code

React
Next.js
Vite
Tailwind CSS
Spring Boot
Spring Security
REST APIs
WebSocket
PostgreSQL

EDUCATION

B.Sc. Software Engineering

In Progress - 6th Semester

Relevant Coursework: Data Structures & Algorithms · Object-Oriented Programming · Database Design · Software Architecture · Differential Equations · System Design
